

## Delmarva Power Energy Savings for Business Program Small Business Program Miscellaneous Energy Efficiency Measures and Incentives (in Existing Buildings)

The Delmarva Power Energy Savings for Business Program offers incentives to install energy efficient water heating, clothes washers, residential dehumidifiers used in commercial settings, and agricultural measures. To take advantage of these incentives, you must meet the following eligibility requirements:

1. Be a Delmarva Power customer and business in the Maryland territory with an electrical demand  $\leq$  100 kW over the last twelve months with annual kWh of less than 875,000.<sup>1</sup>
2. Have an existing facility, as new construction is not eligible for this program.
3. Not be a temporary account, a cellular phone or microwave transmission tower-account, or a vacant facility. These may be eligible for New Construction or other programs.

If a single customer has multiple accounts in the same facility and one account has  $\leq$  100 kW demand over the previous twelve months, the equipment serviced through that account is eligible for Small Business Program incentives; equipment serviced by accounts with demand  $>$  100 kW are not eligible for Small Business Program incentives.

<sup>1</sup>Accounts with annual kWh usage  $\geq$  400,000 but  $<$  875,000 kWh will require further review from the Program, even if the accounts meet the kW program requirements.

In addition, incentives greater than \$30,000 or kWh savings greater than 45,000 for one or a combination of projects, completed within the last three years, will receive additional review and will require explanation from customer and/or Service Provider.

### All projects now require pre-approval.

You can contact your installation contractor or equipment vendor to discuss energy efficient equipment options. If you do not have a contractor or vendor in mind, please visit our website for a list of Service Providers.

Additional Terms and Conditions apply; see Application tab for full details.

Measure	Tank Size (in gallons)	Base Incentive	Requirement
Heat Pump Water Heater	<40	\$825	Meets Energy Star® criteria of EF or COP $>$ 2.0 and FHR $>$ 50 gallons/hr <i>Note: FHR is first hour rating, which is found on the spec sheet, GPM x 60</i>
	40	\$1,700	
	50	\$1,800	
	>50	\$1,850	
Commercial Clothes Washer Tier 1 ( $\geq$ 2.20 MEF, $\leq$ 4.5 WF) (Electric DHW; Electric Dryer)		\$200	Meets Energy Star® criteria and have a $\geq$ 2.20 Modified Energy Factor (MEF) and $\leq$ 4.5 Water Factor (WF)
Commercial Clothes Washer Tier 1 ( $\geq$ 2.20 MEF, $\leq$ 4.5 WF) (Electric DHW; Gas Dryer)		\$200	Meets Energy Star® criteria and have a $\geq$ 2.20 Modified Energy Factor (MEF) and $\leq$ 4.5 Water Factor (WF)
Commercial Clothes Washer Tier 2 ( $\geq$ 2.40 MEF, $\leq$ 4.0 WF) (Electric DHW; Electric Dryer)		\$400	Meets Energy Star® criteria and have a $\geq$ 2.40 Modified Energy Factor (MEF) and $\leq$ 4.0 Water Factor (WF)
Commercial Clothes Washer Tier 2 ( $\geq$ 2.40 MEF, $\leq$ 4.0 WF) (Electric DHW; Gas Dryer)		\$400	Meets Energy Star® criteria and have a $\geq$ 2.40 Modified Energy Factor (MEF) and $\leq$ 4.0 Water Factor (WF)
Residential Clothes Washer CEE Tier 2 (Electric DHW; Electric Dryer)		\$83	Meets CEE Tier 2 criteria
Residential Clothes Washer CEE Tier 2 (Electric DHW; Gas Dryer)		\$83	Meets CEE Tier 2 criteria
Residential Clothes Washer CEE Tier 3 (Electric DHW; Electric Dryer)		\$110	Meets CEE Tier 3 criteria
Residential Clothes Washer CEE Tier 3 (Electric DHW; Gas Dryer)		\$110	Meets CEE Tier 3 criteria
Residential Dehumidifier (used in Commercial Setting)		\$33	Meets Energy Star® criteria
