

We've Got More Ways to Save

HVAC Upgrade

Need a full HVAC replacement? A high-efficiency system can help you save up to 20% on energy costs each year.[†] You could be eligible for 0% interest financing, too.

Appliance Recycling

Recycle your old, working fridge or freezer and we'll give you \$50.

Quick Home Energy Check-up

An energy expert will do a quick walk-through of your home, looking for ways you can save energy.

Energy Wise Rewards™

Own a smart thermostat? Join today and it will adjust the temperature automatically while you earn up to \$40 in yearly bill credits.

Scan the code for more information on these and other energy-saving programs.

**"My HVAC runs nonstop,
like it's training for
a marathon."**

**"Let's give it a breather
with a no-cost tune-up."**

—Zoe, Your Good Energy Guide

Keep your HVAC running strong.

If your heating and cooling system struggles to keep up, that could mean higher costs. A no-cost HVAC Tune-up can have your system running smoothly in no time.

What's included?

- ☒ System diagnostic testing
- ☒ Coil review
- ☒ Indoor and outdoor coil cleaning
- ☒ Electrical inspection
- ☒ Refrigerant level check
- ☒ Condensate drain cleaning

How can a tune-up help?

Save money

Enhance comfort

Improve air quality

Help the environment

Upgrade your thermostat.

During your tune-up, we might install a smart thermostat at no cost.* It learns your habits and adjusts the temperatures automatically, so you can stay comfortable without the extra effort.

Request your HVAC Tune-up by scanning the code or calling **866-353-5799**.

*Not everyone will be eligible to receive a smart thermostat. Work with your contractor to determine your eligibility.
