☒ **Yes** ☐ **No**

Since 1924, Stockton Volunteer Fire Company has been there for its community. With recent facility improvements and energy-efficient lighting upgrades, the station is better equipped to support emergency response as well as community events such as the annual Turkey Shoot and local fundraisers.

“Delmarva Power programs helped us reduce major energy costs—freeing up critical funds to invest back into our firefighters, our equipment, and the community we serve.”

—Tim Jerscheid, Fire Chief
